Valens Pay Limited Delivers 490% Gross Income Growth in 2025 and Achieves First Profitable Year

London, United Kingdom – February 19, 2026 – VP Fintech Group's investee company, Valens Pay Limited, has finalized its financial accounts for the year ended 31 December 2025, reporting a 490% year-on-year increase in gross income and achieving its first full year of profitability.

The results mark a significant inflection point in the company's development, demonstrating accelerating monetization, improving unit economics, and scalable platform infrastructure.

For 2025, Valens Pay generated:

- **490% gross income growth year-on-year**
- **First full-year positive net result (six-figure profit)**
- Strengthened operating leverage as revenue growth materially outpaced cost growth
- Continued expansion of global transaction volumes and user activity

The combination of hypergrowth and profitability underscores the strength of Valens Pay's platform economics and its ability to scale efficiently as user adoption accelerates.

Importantly, revenue growth was driven by increased transaction activity and improved monetization, reflecting deeper engagement within the ecosystem.

"This year represents a structural shift in our growth trajectory," said a spokesperson for VP Fintech Group. "We have demonstrated that Valens Pay can grow at scale while generating profit — a critical milestone for any high-growth fintech platform."

With profitability established and growth momentum accelerating, Valens Pay enters 2026 focused on expanding payment corridors, deepening monetization across its growing user base, and scaling international partnerships.
