*I am very pleased to report that the Company made a net profit of £474,134 in 2001, which represents a very acceptable return on capital employed of 12.1%.*

*However, I am very disappointed to report that Trafalgar (our risk carrier) suffered an underwriting loss in 2001.*

*During the first two quarters of 2001 it was predicted that Trafalgar was on target for an underwriting profit for the year, which indicated that our risk profiling and rating was maturing positively as expected in accordance with account experience and volume.*

*But, during the third quarter certain adverse factors started to emerge. Firstly, Trafalgar's technical reserves needed strengthening in respect of outstanding liability claims from previous years, as a result of the well publicised escalation in damages awards that have affected the entire industry in recent times. Secondly, there was a disturbing increase in new policyholder non-disclosure, including where introductory no claims bonus was involved. Thirdly, we discovered that our premium instalment scheme had attracted a disproportionate volume of poor quality business with a high percentage of claims during the first few months followed by non-payment and subsequent policy cancellation. Also, against the background of losses in Northern Ireland, Trafalgar ceased underwriting there with effect from 1st March 2002 – although a new risk carrier is likely to underwrite the profitable segment of the NI account on behalf of Broker Direct later this year.*

*During the latter part of 2001, Broker Direct itself invested heavily in producing significantly improved risk statistics and has developed a 'state of the art' data warehouse. This has enabled the Company to identify more easily unacceptably high risk policyholder profiles. The Company has already taken action to reduce Trafalgar's exposure to business that could generate a serious loss ratio – such as certain types of premium instalment cases, introductory no claims discounts and a number of post codes in which other insurers appear to be under-pricing. As a result of these actions it is anticipated that premium income will be reduced to some extent during 2002 (£71m in 2001), growing again in 2003 as the account gains more business from the market sectors we seek to attract. We believe that the actions taken already will produce an underwriting profit.*

*Broker Direct is very reliant on brokers themselves at the point of sale where vigilance and good business practice by brokerage staff is absolutely essential. For example, some brokers have allowed an unusually high proportion of introductory no claims discounts – some of these cases have resulted in six and seven figure liability claims.*

*Our analysis shows that the majority of shareholding brokers are able to identify poor quality business and do not want it on their books. We should all be aware that there is a new mood in the market; insurers will no longer support loss making accounts however large, and brokers can expect to be increasingly scrutinised on their point of sale practices. To help everyone, Broker Direct will be launching a series of broker training courses later in the year, with a view to the mutual conversion of more quality business and to help brokers' staff identify and avoid dishonest policyholders.*

*The Company is now an extremely sophisticated, highly efficient, market-leading organisation with low operating costs. Furthermore, shareholder response to our annual quality assurance survey tells us that we are continuing to provide a superior service in the market. The launch of our second motor product during 2001 was received well and it is already making up for some of the business we will not be expecting to renew or attract for the reasons stated above.*

*After a period of significant growth from 'scratch' just a few years ago, 2002 will be a year for the Board to 'take stock', consolidate the Company's strong position and plan for the future. We are now ready to start developing new (non-motor) insurance product lines using Internet delivery, in addition to anticipating the many opportunities arising from the IIB's new network proposals. I expect that these changes will have a very beneficial impact on profits and our shareholders' business prospects during 2003 and onwards.*

*During this important period of the Company's development, I urge all shareholding brokers to take a very responsible view, regarding the quality and quantity of business they place with us – themselves urging their frontline staff to support Broker Direct in the long-term interests of all concerned. In this regard, we must all contribute to ensure that in future our JVA partner (Trafalgar/Allianz Cornhill) consistently earns a return commensurate with their support.*

*For some time now, it has been clear that shareholders would like to see a more efficient and transparent market in their shares. A proposal will be made at the forthcoming Annual General Meeting to improve the share market and prepare the way for new agent/shareholders to be recruited.*

*I would like to take this opportunity of thanking the Broker Direct management and staff for their considerable efforts in steering the company through a challenging period and for the work already done towards improving the Trafalgar result. I am confident that this will have come to fruition by the time I write my next report to shareholders.*

**Andrew N Paddick**  
Chairman

3 May 2002

The directors present their annual report and audited financial statements for the year ended 31 December 2001.

### Principal activity

Broker Direct Plc is an insurance management services and marketing organisation. The Company designs and administers personal lines insurance products for exclusive distribution through its shareholding broker network. The product range is marketed under the brand name of Broker Direct.

Underwriting is undertaken by Trafalgar Insurance PLC, a Treasury authorised insurance company. Trafalgar is a subsidiary of Cornhill Insurance PLC, itself part of Allianz – Europe's largest insurance group.

Brokers, both as shareholders and participants in the enterprise, are involved in the planning of the Company's future growth and prosperity. In this sense, shareholding brokers are the architects of their own future.

### Review of the business

The profit and loss account shows a profit after taxation for the year of £474,134 (2000 : £184,441). The directors are unable to recommend payment of a dividend at this time (2000 : £Nil).

### Directors

The directors who were serving at the year end are shown below:

|                |   |               |
|----------------|---|---------------|
| Andrew Paddick | Chairman                                  | Non-Executive |
| Barry Fehler   | Broker Liaison Director                   | Non-Executive |
| Roy Green      | Director and General Manager              | Executive     |
| Iain Gray      | Finance Director                          | Executive     |
| Neil Harris    | Insurance Director                        | Executive     |
| Terry Stanley  | Broker Services and Marketing Director    | Executive     |
| Gareth Jones   | Cornhill Insurance PLC nominated Director | Non-Executive |

### Directors interests

The interest of the directors in office at the end of the year, in the shares of the company at the 1 January 2001 and the 31 December 2001, were as follows:

|                |                     |        |
|----------------|---------------------|--------|
| Andrew Paddick | 'A' Ordinary shares | 25,394 |
| Barry Fehler   | 'A' Ordinary shares | 6,250  |
| Roy Green      | 'A' Ordinary shares | 12,500 |
| Iain Gray      | 'A' Ordinary shares | Nil    |
| Neil Harris    | 'A' Ordinary shares | Nil    |
| Terry Stanley  | 'A' Ordinary shares | Nil    |
| Gareth Jones   | 'A' Ordinary shares | Nil    |

### Transactions in which directors had a material interest

The Institute of Insurance Brokers Group, of which Andrew Paddick and Barry Fehler are directors, provided dispute resolution services during the year. The fee for these services was £8,161.

South Essex Insurance Brokers (SEIB), of which Barry Fehler is the Managing Director, are nominated advisers to Broker Direct Plc as follows :

Company insurances:   Office  
                                  Company Cars

No fee is paid directly for these services, though SEIB do receive commission from the providing insurers.

### **Directors' responsibilities for the financial statements**

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing those financial statements, the directors are required to:

- ◆ select suitable accounting policies and then apply them consistently
- ◆ make judgements and estimates that are reasonable and prudent
- ◆ state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements and
- ◆ prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for maintaining proper accounting records, for safeguarding the assets of the Company and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### **Employment policies**

The Company maintains a policy of offering employment opportunities that are free from discrimination on any grounds, other than unsuitability for the position in question, whether this relates to initial selection for employment, promotion or any other employment matter. Equal consideration is given to disabled people, where they have the appropriate experience, qualifications and ability to do the job.

### **Employee involvement**

We seek to employ staff who will take the opportunity presented to make positive contributions to the development of the business, and it is the approach of the Company to be as open as possible with staff and obtain their feedback.

**Creditor payment policy**

The Company does not follow any formal code of practice on payment to its creditors. However, it is the Company's policy to:

- ◆ settle the terms of payment with its supplier when agreeing the terms of each transaction
- ◆ ensure that those suppliers are made aware of the terms of payment by inclusion of the relevant terms in contracts
- ◆ pay in accordance with its contractual and other legal obligations.

The payment policy applies to all creditors for revenue and capital suppliers of goods and services without exception.

The Company's average creditor payment period at 31 December 2001 was 12 days (2000 : 30 days).

**Auditors**

Grant Thornton have indicated their willingness to be re-appointed and a resolution concerning their reappointment will be proposed at the Annual General Meeting.

BY ORDER OF THE BOARD

A N Paddick  
Chairman

3 May 2002

### Introduction

In framing the remuneration policy, consideration has been given to the 'Director's Remuneration Report of a Study Group chaired by Sir Richard Greenbury' (The Greenbury Report) 17th July 1995.

To avoid potential conflicts of interest, the Board of Directors has delegated responsibility for determining executive remuneration to a Committee of Non-Executive Directors, who:

- ◆ Are knowledgeable of the business
- ◆ Are responsive to the shareholders' interests
- ◆ Have no personal financial interest in the remuneration decisions they are taking.

The members of the Committee are:

Barry Fehler - Chairman

Andrew Paddick

Gareth Jones

### Executive Director's Remuneration Policy – objectives

- ◆ To provide packages that attract, retain and motivate the Executive Directors
- ◆ Link rewards to performance, by both company and individual
- ◆ Align the interests of Directors and shareholders in promoting the company's progress

### Directors' service contracts

The service contracts for Roy Green, Neil Harris, Terry Stanley and Iain Gray are in a similar form. The term in each case is for a rolling term of two years. The company may give three months notice at any time subject to paying not more than two years compensation (except in specific circumstances when no compensation will be payable).

### Report

During the final quarter of 2001 and the first quarter of 2002, the Committee reviewed the salaries, benefits and long term incentive packages of the executive directors.

The Committee wishes to convey its congratulations to the executive team for the company's excellent development in achieving substantial growth through the year and more than doubling the profit of £184,441 in 2000 to £474,134 in 2001. However, as already mentioned in the Chairman's Report, the joint venture with Cornhill Insurance saw a significant loss in the operations of Trafalgar Insurance and consequently, the salary reviews of the Executive Directors for 2002 have been held at a nominal rate of increase.

The Committee notes that the company has failed to reach the written premium targets set out in the Unapproved Share Option Scheme as set down in 1996. As a result the Directors will receive no reward. It is now appropriate to re-incentivise the Directors based on targets reflecting the position of the Company now and its objectives for the next five years.

It is recognised that basing a share option scheme on premium growth can be contradictory to the profit requirement of the joint venture. A resolution will therefore be presented at the 2002 Annual General Meeting proposing the implementation of a scheme whereby share options are granted when the Company's profits exceed a 15% return on Capital. Full details of the proposed scheme are included with the Notice of Annual General Meeting and it is the recommendation of this Committee that the resolution be approved

Directors' remuneration packages are subject to annual review. The next such review will be in the final quarter of 2002.

We have audited the financial statements of Broker Direct Plc for the year ended 31 December 2001 which comprise the principle accounting policies, the profit and loss account, the balance sheet, the cashflow statement and notes 1 to 16.

These financial statements have been prepared in accordance with the accounting policies set out therein.

### **Respective responsibilities of directors and auditors**

The directors' responsibilities for preparing the director's report and the financial statements in accordance with United Kingdom law and accounting standards are set out in the statement of directors' responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and United Kingdom auditing standards.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the company is not disclosed.

We read other information contained in the director's report, and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

### **Basis of opinion**

We conducted our audit in accordance with United Kingdom auditing standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

### **Opinion**

In our opinion the financial statements give a true and fair view of the state of the company's affairs as at 31 December 2001 and of its profit for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

Grant Thornton  
Registered Auditors  
Chartered Accountants  
Manchester

3 May 2002

**Basis of preparation**

The financial statements have been prepared in accordance with applicable accounting standards under the historical cost convention.

The principal accounting policies of the company are set out below.

**Turnover**

Turnover is the amount receivable for goods and services provided. No VAT is chargeable on these services.

**Depreciation**

Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets by equal monthly instalments over their expected useful lives. The periods generally applicable are:

|                                 |         |
|---------------------------------|---------|
| Leasehold improvements          | 4 years |
| Computers - Hardware            | 3 years |
| Computer - Software Development | 5 years |
| Equipment                       | 4 years |
| Furniture and fittings          | 4 years |
| Cars                            | 3 years |

**Deferred acquisition costs**

Acquisition costs comprise the commission expenses of acquiring policies written during the year.

Acquisition costs that relate to a subsequent financial year are deferred to the extent that they are attributable to income unearned at the balance sheet date. The amount not yet passed through the profit and loss account is held in the balance sheet.

**Income recognition**

Income comprises commission received for selling and administering annual insurance policies. The proportion of income that relates to the administration of these policies is deferred and released to the profit and loss account throughout the term of the policy in equal monthly instalments. The amount not yet passed through the profit and loss account is held in the balance sheet.

**Leased assets**

The Company has no Assets held under finance leases or hire purchase contracts.

All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.

**Contributions to pension funds***Defined contribution scheme*

The pension costs charged against profits represent the amount of the contributions payable to the scheme in respect of the accounting period.

For the year ended 31 December 2001
